

Practice Schedule Download

Posted by bobp123 - 16 May 2014 15:23

I just purchased the beginners course and it mentions getting the Practice Schedule downloads.

Where do I find that?

Thanks,

Bob

Hello Bob,

Yes there should be a practice schedule which is a PDF file and also many audio MP3 files that you can download right onto your desktop. If they're not showing up when you have access to the site then look up to the right the bar just below the totally vocals.com logo and

look over to the right and boot on "support";..

From their a bar comes down you should see "helpdesk" and "billing". You should boot on "helpdesk" then a screen will come up that says submit a ticket... fill out thew little questionnaire it is very short and easy to do.

State the technical problem and help should be on the way.

Hope that helps if there's any problems please let me now.

Keep singing,

TV Jim
